PERSONAL PROJECTS

Coinfundr - Polygon Africa Hackathon 2022

- Took part in a 2-week hackathon where me and two other teammates created https://coinfundr.netlify.app, a web3 crowdfunding platform built on the polygon network that provides individuals with a fast and seamless means of accepting and sending donations.
- Coinfundr came in 6th runner-up and received a grant.
- https://polygon.technology/blog/announcing-the-hackathon-winners-of-polygon-bootcamp-africa

Werb - Dashboard & Chrome Extension

- Created a chrome extension and dashboard to keep me informed on the latest web3 related news and crypto prices.
- https://werbapp.herokuapp.com/ - Dashboard
- https://chrome.google.com/webstore/detail/werb-web3/obbmplbbplclkcfnbokhpdapejkjkpog - Chrome Extension
